Sample A, Item 1	All ages

Scoring

Scoring is based **only** on the path the child took (except Item 4 & 5). Oral counting errors or failure to count aloud do not affect the score

On Teaching Items 1 and 2, score 2 points for following the correct path within the time limit on the first trial and 1 point for a correct response on the second trial.

Items 4 and 5

Failure to orally count 2 moves on the rock results in a score of 0

Score 2 points for following the correct path with no counting errors and within the time limit on the first trial, and 1 point for a completely correct response on the second trial

On a non-teaching item, score 2 points for following the correct path within the time limit, and 1 point if the child's response has one more than the correct number of moves but does not go on a weed space.

Discontinue Rule

5 consecutive scores less than 2
