af-ahead-v1

TITLE

African Harmonised Early-Grade Assessment Dataset

ABBREVIATION OR ACRONYM

AHEAD

COUNTRY

Country code	Name
AFR	Africa

ABSTRACT

The AHEAD dataset pools and harmonizes microdata from Early Grade Reading Assessment (EGRA) and Early Grade Mathematics Assessment (EGMA) surveys conducted in African countries between 2010 and 2022. Each constituent survey was originally captured with its own variable names, numeric codes, and value labels. The harmonization assigns a single canonical variable name, code, label scheme to comparable items across surveys to produce one analysis-ready pooled data file suitable for cross-country and cross-time comparative research on early-grade literacy and numeracy across diverse educational contexts.

Survey-level documentation, including assessment sub-tasks, sampling design commands, and source-linking instructions, is available in the AHEAD Study Catalogue: [<https://datafirst-courses.github.io/egra-egma/>]

KIND OF DATA

Harmonized survey microdata

UNIT OF ANALYSIS

Individual pupil (learner)

Version

VERSION DESCRIPTION

v1.1: Edited, anonymised data for public distribution

VERSION DATE

2026-06-29

Scope

KEYWORDS

Keyword
Education
Early grade reading
Early grade mathematics
Literacy
Numeracy
Learning assessment
EGRA

EGMA

Early foundational learning

Coverage

GEOGRAPHIC COVERAGE

National coverage

UNIVERSE

Early-grade primary school pupils assessed in the respective EGRA/EGMA samples. Exact target grades and eligibility rules differ by survey

Producers and sponsors

PRIMARY INVESTIGATORS

Name	Affiliation
African Foundational Learning Data Hub	DataFirst

FUNDING AGENCY/SPONSOR

Name	Role
Gates Foundation	Financial support

Sampling

SAMPLING PROCEDURE

Constituent surveys used different sample designs. Harmonized survey design variables are present in the pooled file where supplied by the original survey. There is no single pooled sampling frame. Weighted and sampling error estimation analysis requires a separate survey design specification for each source.

Data Collection

DATA COLLECTION MODE

Face-to-face paper and pen interview [face-to-face]

DATA COLLECTORS

Name	Affiliation	Abbreviation
United States Agency for International Development	US Government	USAID

Questionnaires

QUESTIONNAIRES

Early Grade Reading Assessment (EGRA) and Early Grade Mathematics Assessment (EGMA) instruments. Original instruments, languages of assessment, and field protocols differ by constituent survey.

Data Processing

DATA EDITING

Full description of the cleaning operations can be found in the Reference Guide in the Downloads tab.

Data Appraisal

DATA APPRAISAL

Known limitations, residual unresolved codes, and cross-survey variable availability are documented in the User Guide and Appendix C (Variable Availability Matrix).

Data Description

Data file	Cases	Variables
ahead-v1 Harmonized pupil-level EGRA/EGMA microdata pooled from 24 constituent surveys. Includes pupil demographics, test items and scores, sampling-design variables, and a source tag identifying the constituent survey.	0	1884

SOURCE: Original Survey**Data file: ahead-v1****Overview**

ahead-reference-notes-v1

Title	ahead-reference-notes-v1
Author(s)	African Foundational Learning Data Hub (AFLEARN)
Date	2026-07-01T22:00:00.000Z
Country	South Africa
Language	English
Contributor(s)	Cally Ardington, Chifundo Kanjala, Sipiwe Bogatsu, Mikaela Ann Daries
Description	The current release represents the first stage of this long-term harmonization programme. It includes 129,141 harmonized pupil records from 24 constituent surveys, with standardized demographic, survey and study designs, and EGRA/EGMA assessment variables. Additionally, it features a mechanism to link the pooled records back to the rest of the source data, alongside a uniform, harmonised pupil identifier that provides a consistent ID system across all surveys, the details of which are expanded upon in the companion Reference Guide.
